KRAFT HEINZ REPORTS SECOND QUARTER 2024 RESULTS

**Lowers Full Year Outlook for Organic Net Sales⁽¹⁾⁽²⁾ and Adjusted Operating Income⁽¹⁾⁽²⁾
Reaffirms Full Year Outlook for Adjusted EPS⁽¹⁾⁽²⁾**

Second Quarter Highlights

- Net sales decreased 3.6%; Organic Net Sales⁽¹⁾ decreased 2.4%
- Gross profit margin increased 180 basis points to 35.4%; Adjusted Gross Profit Margin⁽¹⁾ increased 210 basis points to 35.5%
- Operating income decreased 62.1%; Adjusted Operating Income⁽¹⁾ increased 2.0%
- Diluted EPS was \$0.08, down 90.1%; Adjusted EPS⁽¹⁾ was \$0.78, down 1.3%
- Year-to-date net cash provided by operating activities was \$1.7 billion, up 8.1%; Free Cash Flow⁽¹⁾ was \$1.2 billion, up 8.7%
- Year-to-date return of capital to stockholders was \$1.5 billion

PITTSBURGH & CHICAGO – July 31, 2024 – The Kraft Heinz Company (Nasdaq: KHC) (“Kraft Heinz” or the “Company”) today reported financial results for the second quarter of 2024.

“Our second quarter net sales growth came in lower than originally anticipated, as consumer sentiment remains cautious,” said Kraft Heinz CEO Carlos Abrams-Rivera. “While we are now expecting a more gradual top-line improvement in the back half of the year, we continue to unlock efficiencies that are allowing us to make accretive investments in our brands, grow profits, and drive future sales growth.”

“As we enter the second half of 2024, many drivers are giving us optimism for improved top-line trends. We are anticipating a continued ramp up of both innovation and renovation, particularly in North America Retail, and we are increasing our marketing investment to continue to drive brand superiority across our portfolio. In Away From Home and Emerging Markets, we expect to increase distribution through our go-to-market strategy and global activations. Finally, understanding that the consumer is looking for value, we will selectively increase investments in promotions.”

Abrams-Rivera continued, “We remain confident in our strategy and in the attractive categories in which we compete. We are committed to managing our business in a disciplined manner that preserves our ability to drive sustainable, long-term growth.”

Q2 2024 Financial Summary

- **Net sales** decreased 3.6 percent versus the year-ago period to \$6.5 billion, including a negative 1.0 percentage point impact from foreign currency and a negative 0.2 percentage point impact from divestitures. **Organic Net Sales⁽¹⁾** decreased 2.4 percent versus the prior year period. Price increased 1.0 percentage points versus the prior year period, with increases in the North America and Emerging Markets segments partially offset by lower price in International Developed Markets. Favorable price was primarily due to pricing taken in certain categories to mitigate higher input costs. Volume/mix declined 3.4 percentage points versus the prior year period, with declines in the North America and International Developed Markets segments partially offset by volume/mix growth in Emerging Markets. Unfavorable volume/mix was primarily due to waning consumer sentiment.
- **Operating Income** decreased 62.1 percent versus the year-ago period to \$0.5 billion, primarily driven by non-cash impairment losses of \$854 million in the current year period. **Adjusted Operating Income⁽¹⁾** increased 2.0 percent versus the year-ago period to \$1.4 billion, primarily driven by gross savings, including lower commodity and logistics costs, and higher pricing. This more than offset unfavorable volume/mix, increased selling, general and administrative expenses primarily driven by investments in marketing and technology, and an unfavorable impact from foreign currency (0.7 pp).
- **Diluted EPS** was \$0.08, down 90.1 percent versus the prior year period, primarily driven by non-cash impairment losses in the current year period. **Adjusted EPS⁽¹⁾** was \$0.78, down 1.3 percent versus the prior year period, primarily driven by lapping a one-time tax benefit in the prior year associated with a net decrease in uncertain tax position reserves. The lapping of this one-time tax benefit more than offset higher Adjusted Operating Income, fewer shares outstanding, and favorable changes in other expense/(income).
- Year-to-date **net cash provided by/(used for) operating activities** was \$1.7 billion, up 8.1 percent versus the year-ago period. This increase was primarily due to favorable improvements in working capital, predominantly within inventory and accounts payable, as well as higher Adjusted Operating Income. These impacts were partially offset by higher cash outflows for variable compensation in the 2024 period compared to the 2023 period. **Free Cash Flow⁽¹⁾** was \$1.2 billion, up 8.7 percent versus the prior year period, driven by the same net cash provided by/(used for) operating activities discussed above. These factors more than offset an increase of \$35 million in capital expenditures in the current year.
- **Capital Return:** Year to date, the Company paid \$969 million in cash dividends and repurchased \$537 million of common stock. Of the \$537 million in share repurchases in 2024, \$350 million were repurchased under the Company's publicly announced share repurchase program and \$187 million were purchased to offset the dilutive effect of equity-based compensation. As of June 29, 2024, the Company had remaining authorization to repurchase \$2.4 billion of common stock under the publicly announced share repurchase program.

Outlook

For fiscal year 2024, the Company now expects:

- **Organic Net Sales**⁽²⁾ to be down 2 percent to flat versus the prior year, compared to the previous expectation of 0 to 2 percent growth.
- **Adjusted Operating Income**⁽²⁾ growth of 1 to 3 percent versus the prior year, compared to the previous expectation of 2 to 4 percent growth. This contemplates expected Adjusted Gross Profit Margin⁽¹⁾⁽²⁾ expansion in the range of 75 to 125 basis points versus the prior year, compared to the previous expectation of 50 to 100 basis points versus the prior year.
- **Adjusted EPS**⁽²⁾ growth of 1 to 3 percent, or in the range of \$3.01 to \$3.07, which is the same as prior expectations. The Company continues to expect an effective tax rate on Adjusted EPS to be in the range of 20 to 22 percent. Additionally, the Company expects an unfavorable impact of approximately \$30 million within interest expense and other expense/(income) versus the prior year. The outlook does not contemplate any potential additional share repurchases in 2024.

End Notes

- (1)** Organic Net Sales, Adjusted Gross Profit, Adjusted Gross Profit Margin, Adjusted Operating Income, Adjusted EPS, and Free Cash Flow are non-GAAP financial measures. Please see discussion of non-GAAP financial measures and the reconciliations at the end of this press release for more information.
- (2)** Guidance for Organic Net Sales, Adjusted Gross Profit Margin, Adjusted Operating Income, and Adjusted EPS is provided on a non-GAAP basis only because certain information necessary to calculate the most comparable GAAP measure is unavailable due to the uncertainty and inherent difficulty of predicting the occurrence and the future financial statement impact of such items impacting comparability, including, but not limited to, the impact of currency, acquisitions and divestitures, divestiture-related license income, restructuring activities, deal costs, unrealized losses/(gains) on commodity hedges, impairment losses, certain non-ordinary course legal and regulatory matters, equity award compensation expense, nonmonetary currency devaluation, and debt prepayment and extinguishment (benefit)/costs, among other items. Therefore, as a result of the uncertainty and variability of the nature and amount of future adjustments, which could be significant, the Company is unable to provide a reconciliation of these measures without unreasonable effort.

Earnings Discussion and Webcast Information

A pre-recorded management discussion of The Kraft Heinz Company's second quarter 2024 earnings is available at ir.kraftheinzcompany.com. The Company will host a live question-and-answer session beginning today at 9:00 a.m. Eastern Daylight Time. A webcast of the session will be accessible at ir.kraftheinzcompany.com.

ABOUT THE KRAFT HEINZ COMPANY

We are driving transformation at The Kraft Heinz Company (Nasdaq: KHC), inspired by our Purpose, *Let's Make Life Delicious*. Consumers are at the center of everything we do. With 2023 net sales of approximately \$27 billion, we are committed to growing our iconic and emerging food and beverage brands on a global scale. We leverage our scale and agility to unleash the full power of Kraft Heinz across a portfolio of eight consumer-driven product platforms. As global citizens, we're dedicated to making a sustainable, ethical impact while helping feed the world in healthy, responsible ways. Learn more about our journey by visiting www.kraftheinzcompany.com or following us on LinkedIn.

Forward-Looking Statements

This press release contains a number of forward-looking statements. Words such as “accelerate,” “anticipate,” “believe,” “commit,” “continue,” “expect,” “will,” “guidance,” and “outlook,” and variations of such words and similar future or conditional expressions are intended to identify forward-looking statements. Examples of forward-looking statements include, but are not limited to, statements regarding the Company's plans, impacts of accounting standards and guidance, growth, legal matters, taxes, costs and cost savings, impairments, dividends, expectations, investments, innovations, opportunities, capabilities, execution, initiatives, and pipeline. These forward-looking statements reflect management's current expectations and are not guarantees of future performance and are subject to a number of risks and uncertainties, many of which are difficult to predict and beyond the Company's control.

Important factors that may affect the Company's business and operations and that may cause actual results to differ materially from those in the forward-looking statements include, but are not limited to, operating in a highly competitive industry; the Company's ability to correctly predict, identify, and interpret changes in consumer preferences and demand, to offer new products to meet those changes, and to respond to competitive innovation; changes in the retail landscape or the loss of key retail customers; changes in the Company's relationships with significant customers or suppliers, or in other business relationships; the Company's ability to maintain, extend, and expand its reputation and brand image; the Company's ability to leverage its brand value to compete against private label products; the Company's ability to drive revenue growth in its key product categories or platforms, increase its market share, or add products that are in faster-growing and more profitable categories; product recalls or other product liability claims; climate change and legal or regulatory responses; the Company's ability to identify, complete, or realize the benefits from strategic acquisitions, divestitures, alliances, joint ventures, or investments; the Company's ability to successfully execute its strategic initiatives; the impacts of the Company's international operations; the Company's ability to protect intellectual property rights; the Company's ability to realize the anticipated benefits from prior or future streamlining actions to reduce fixed costs, simplify or improve processes, and improve its competitiveness; the influence of the Company's largest stockholder; the Company's level of indebtedness, as well as our ability to comply with covenants under our debt instruments; additional impairments of the carrying amounts of goodwill or other indefinite-lived intangible assets; foreign exchange rate fluctuations; volatility in commodity, energy, and other input costs; volatility in the market value of all or a portion of the commodity derivatives we use; compliance with laws and regulations and related legal claims or regulatory enforcement actions; failure to maintain an effective system of internal controls; a downgrade in the Company's credit rating; the impact of sales of the Company's common stock in the public market; the impact of the Company's share repurchases or any change in the Company's share repurchase activity; the Company's ability to continue to pay a regular dividend and the amounts of any such dividends; disruptions in the global economy caused by geopolitical conflicts, unanticipated business disruptions and natural events in the locations in which the Company or the Company's customers, suppliers, distributors, or regulators operate; economic and political conditions in the United States and in various other nations where the Company does business (including inflationary pressures, instability in financial institutions, general economic slowdown, recession, or a potential U.S. federal government shutdown); changes in the Company's management team or other key personnel and the Company's ability to hire or retain key personnel or a highly skilled and diverse global workforce; our dependence on information technology and systems, including service interruptions, misappropriation of data, or breaches of security; increased pension, labor, and people-related expenses; changes in tax laws and interpretations and the final determination of tax audits,

including transfer pricing matters, and any related litigation; volatility of capital markets and other macroeconomic factors; and other factors. For additional information on these and other factors that could affect the Company's forward-looking statements, see the Company's risk factors, as they may be amended from time to time, set forth in its filings with the Securities and Exchange Commission ("SEC"). The Company disclaims and does not undertake any obligation to update, revise, or withdraw any forward-looking statement in this press release, except as required by applicable law or regulation.

We use our investor relations website, ir.kraftheinzcompany.com, as a routine channel for distribution of important, and often material, information about Kraft Heinz, including quarterly and annual earnings results and presentations, press releases and other announcements, webcasts, analyst presentations, investor days, sustainability initiatives, financial information, and corporate governance practices, as well as archives of past presentations and events. We encourage you to follow our investor relations website in addition to our filings with the SEC to receive timely information about the Company. The information on our website is not part of this press release and shall not be deemed to be incorporated by reference into any filings we make with the SEC.

Non-GAAP Financial Measures

The non-GAAP financial measures provided in this press release should be viewed in addition to, and not as an alternative for, results prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

To supplement the financial information provided, the Company has presented Organic Net Sales, Adjusted Operating Income, Constant Currency Adjusted Operating Income, Adjusted Gross Profit, Adjusted Gross Profit Margin, Adjusted Net Income/(Loss), Adjusted EPS, Free Cash Flow, and Net Leverage which are considered non-GAAP financial measures. The non-GAAP financial measures presented may differ from similarly titled non-GAAP financial measures presented by other companies, and other companies may not define these non-GAAP financial measures in the same way. These measures are not substitutes for their comparable GAAP financial measures, such as net sales, net income/(loss), gross profit, diluted earnings per share (“EPS”), net cash provided by/(used for) operating activities, or other measures prescribed by GAAP, and there are limitations to using non-GAAP financial measures.

Management uses these non-GAAP financial measures to assist in comparing the Company’s performance on a consistent basis for purposes of business decision making by removing the impact of certain items that management believes do not directly reflect the Company’s underlying operations. The Company believes:

- Organic Net Sales, Adjusted Operating Income, Constant Currency Adjusted Operating Income, Adjusted Gross Profit, Adjusted Gross Profit Margin, Adjusted Net Income/(Loss), and Adjusted EPS provide important comparability of underlying operating results, allowing investors and management to assess the Company’s operating performance on a consistent basis; and
- Free Cash Flow and Net Leverage provide measures of the Company’s core operating performance, the cash-generating capabilities of the Company’s business operations, and are factors used in determining the Company’s borrowing capacity and the amount of cash available for debt repayments, dividends, acquisitions, share repurchases, and other corporate purposes.

Management believes that presenting the Company’s non-GAAP financial measures is useful to investors because it (i) provides investors with meaningful supplemental information regarding financial performance by excluding certain items, (ii) permits investors to view performance using the same tools that management uses to budget, make operating and strategic decisions, and evaluate historical performance, and (iii) otherwise provides supplemental information that may be useful to investors in evaluating the Company’s results. The Company believes that the presentation of these non-GAAP financial measures, when considered together with the corresponding GAAP financial measures and the reconciliations to those measures, provides investors with additional understanding of the factors and trends affecting the Company’s business than could be obtained absent these disclosures.

Definitions

Organic Net Sales is defined as net sales excluding, when they occur, the impact of currency, acquisitions and divestitures, and a 53rd week of shipments. The Company calculates the impact of currency on net sales by holding exchange rates constant at the previous year's exchange rate, with the exception of highly inflationary subsidiaries, for which the Company calculates the previous year's results using the current year's exchange rate.

Adjusted Operating Income is defined as operating income/(loss) excluding, when they occur, the impacts of restructuring activities, deal costs, unrealized gains/(losses) on commodity hedges (the unrealized gains and losses are recorded in general corporate expenses until realized; once realized, the gains and losses are recorded in the applicable segment's operating results), impairment losses, and certain non-ordinary course legal and regulatory matters. The Company also presents Adjusted Operating Income on a constant currency basis (**Constant Currency Adjusted Operating Income**). The Company calculates the impact of currency on Adjusted Operating Income by holding exchange rates constant at the previous year's exchange rate, with the exception of highly inflationary subsidiaries, for which it calculates the previous year's results using the current year's exchange rate.

Adjusted Gross Profit, Adjusted Net Income/(Loss), and Adjusted EPS are defined as gross profit, net income/(loss), and diluted earnings per share, respectively, excluding, when they occur, the impacts of restructuring activities, deal costs, unrealized losses/(gains) on commodity hedges, impairment losses, certain non-ordinary course legal and regulatory matters, losses/(gains) on the sale of a business, other losses/(gains) related to acquisitions and divestitures (e.g., tax and hedging impacts), nonmonetary currency devaluation (e.g., remeasurement gains and losses), debt prepayment and extinguishment (benefit)/costs, and certain significant discrete income tax items (e.g., U.S. and non-U.S. tax reform), and including when they occur, adjustments to reflect preferred stock dividend payments on an accrual basis. **Adjusted Gross Profit Margin** is defined as Adjusted Gross Profit divided by net sales.

Net Leverage is defined as debt less cash, cash equivalents and short-term investments divided by Adjusted EBITDA. **Adjusted EBITDA** is defined as net income/(loss) from continuing operations before interest expense, other expense/(income), provision for/(benefit from) income taxes, and depreciation and amortization (excluding restructuring activities); in addition to these adjustments, the Company excludes, when they occur, the impacts of divestiture-related license income, restructuring activities, deal costs, unrealized losses/(gains) on commodity hedges, impairment losses, certain non-ordinary course legal and regulatory matters, and equity award compensation expense (excluding restructuring activities).

Free Cash Flow is defined as net cash provided by/(used for) operating activities less capital expenditures. The use of this non-GAAP measure does not imply or represent the residual cash flow for discretionary expenditures since the Company has certain non-discretionary obligations such as debt service that are not deducted from the measure.
